

Professional Summary

I am a motivated IT professional with strong foundation in ETL processes, data warehousing and Database management. Familiar with tools such as **SQL, Informatica PowerCenter, IICS, Snowflake** along with programming knowledge in **C++** and **Python**. Seeking a growth-oriented role where I can contribute, enhance my skills and grow along with the organization.

Skills Profile

Technical	
Operating System	Windows, Unix.
Environment	Informatica PowerCenter, Snowflake, IICS.
Database	Oracle Sql, Snowflake.
Internal Tools	Snowflake Data Warehouse, Power BI Desktop.
Languages	C++, Python.
Other	Data Warehousing Concepts, ETL Concepts, Unix, Microsoft Power BI.

Functional	
Management and Leadership Skills	• Understanding of project management, scheduling and strategic planning concepts. • Teamwork: Collaborated with peers during training. • Problem Solving: Applied technical skills to solve real world problems. • Communication: Polite, Courteous, professionally groomed.
Training & Development	• Collaborated effectively with team members to deliver project tasks using tools such as Informatica, Snowflake and Oracle SQL. • Eager to apply the technical skills learned during training to real world projects

Professional Experience

Working as Software Developer in Capgemini from May 2025 to present.

Projects

RESTAURANT ANALYSIS

July 2025

Role : Informatica Developer

A data integration project focused on analyzing historical sales data from multiple restaurant outlets. The goal was to perform data cleaning and transformation on source data, build ETL workflows, and generate visual insights to support strategic business decisions.

- **Informatica Cloud / PowerCenter** – Conducted data cleaning and transformation, including handling missing values and resolving datatype inconsistencies (e.g., replacing string "null" in numeric fields with default values).
- **ETL Workflow** – Designed and implemented a star schema with dimension tables (*Dim_Hotel*, *Dim_City*, *Dim_Speciality*) and a central fact table (Fact_Hotel) to store transformed and structured data.
- **Environment** – Informatica Cloud/PowerCenter, SQL Developer, csv source file.

Order Profit Dashboard

July 2025

Role : Power BI Developer

Developed an interactive **Order Profit Dashboard** to analyze sales data and profitability insights. Used **Gauge, Table, Decomposition Tree, Q&A, Tree Map, Matrix** to visualize key insights.

- **Data Preparation:** Cleaned and transformed raw data using Power Query to handle missing values, standardize formats, and ensure data consistency across multiple sources (Excel, CSV, SQL).
- **Dashboard Development:** Created dynamic Power BI dashboards showcasing KPIs such as total revenue, profit margin, top-performing products, and regional sales distribution.
- **Insights Delivery:** Delivered actionable insights to improve marketing strategies and sales forecasting.
- **Environment** – Power BI, Excel, SQL.

Training and Seminars

Capgemini Training – A4 Analyst / Software Engineer

- Completed Analyst/A4 training in **IICS, Snowflake** covering data integration, transformation, data cleaning and loading.
- Attended seminar on **Agentic AI** and **Generative AI** covering basic topics like Generative AI vs Agentic AI, AI Agents, Reinforcement learning etc.
- Underwent soft skills and behavioral training, focusing on teamwork, communication, and professional etiquette.

Certifications

- **Ocean Certification-Database SQL Foundation** - Internal Certification
- **Intelligent Data Management Cloud (IDMC) Foundation** Series Certification
- **Intelligent Data Management Cloud (IDMC) Partner Bootcamp Associate** Series
- **Snowflake – The Complete Masterclass** - Udemy

Education

Lakshmi Narain College of Technology
Bachelor Of Technology(CSE), **CGPA: 8.52**

Bhopal, Madhya Pradesh
2021 – 2025
